RUSH SOCCER

Formed in 1997, Rush Soccer began in Littleton, Colorado with Colorado Rush. From there it expanded to more states across the U.S. to where it is now...with over 50 clubs across 35 states! Rush is also in over 40 countries across the world, making it truly a worldwide soccer brand.

SPAIN RUSH-SPF desires to give all players an equal opportunity to explore their potential and pursue positive outcomes on and off the field.

We are glad to have you as part of the club and culture of the Rush!

SPAIN RUSH-SPF

VALENCIA

SPAIN

There are not many cities like Valencia, it is the third city in Spain, located on the Mediterranean coast, with great beaches, one of the largest historical centers in the country, a pleasant climate all year round, sporting and cultural events as well as a great variety of native festivals known worldwide.

LaLiga

Spain

Spain is a great opportunity to become a Top Player in one of the best League in the World.

In total, Spanish clubs have won 78 international titles, among those we have... 18 European Cups / Champions League, 7 FIFA Club World Cups and 11 UEFA Cups

In particular the region to which Valencia belongs, the "Comunidad Valenciana", is next to Cataluña and Madrid, where there are more professional teams concentrated that debut in LaLiga.

In Valencia we have Villarreal CF, Levante UD and Valencia CF, three great clubs, the most competitive in the League.

One of the advantages of playing in the Spanish league is the exposure that players have to professional team scouts. Thus giving the opportunity to those players who meet the requirements and capabilities of these scouts to introduce them into the professional world of soccer.

SOCCER ACADEMY

We have a professional soccer UEFA Pro staff of technicians and coaches that work on the design of the programs to ensure that each player has an individual plan that adapts to their skills as a soccer player and their needs. The aim of the programs is to develop and maximize their potential through an intense training routine and total immersion in the Spanish soccer.

SPAIN RUSH-SPF wants to create intelligent players who know how to better read the game, predict and anticipate future game situations and needs.

This mental agility, together with adequate physical, technical, tactical and psychological preparation, creates players who are more confident and therefore better and smarter on the pitch.

This psychology of soccer provides the players the ability to read the game and advance their movements... that is only achieved with experience in competition, it can't be trained. That's why SPAIN RUSH-SPF players train, play and compete as a weekly routine.

TRAINING SESSION

SPAIN RUSH-SPF

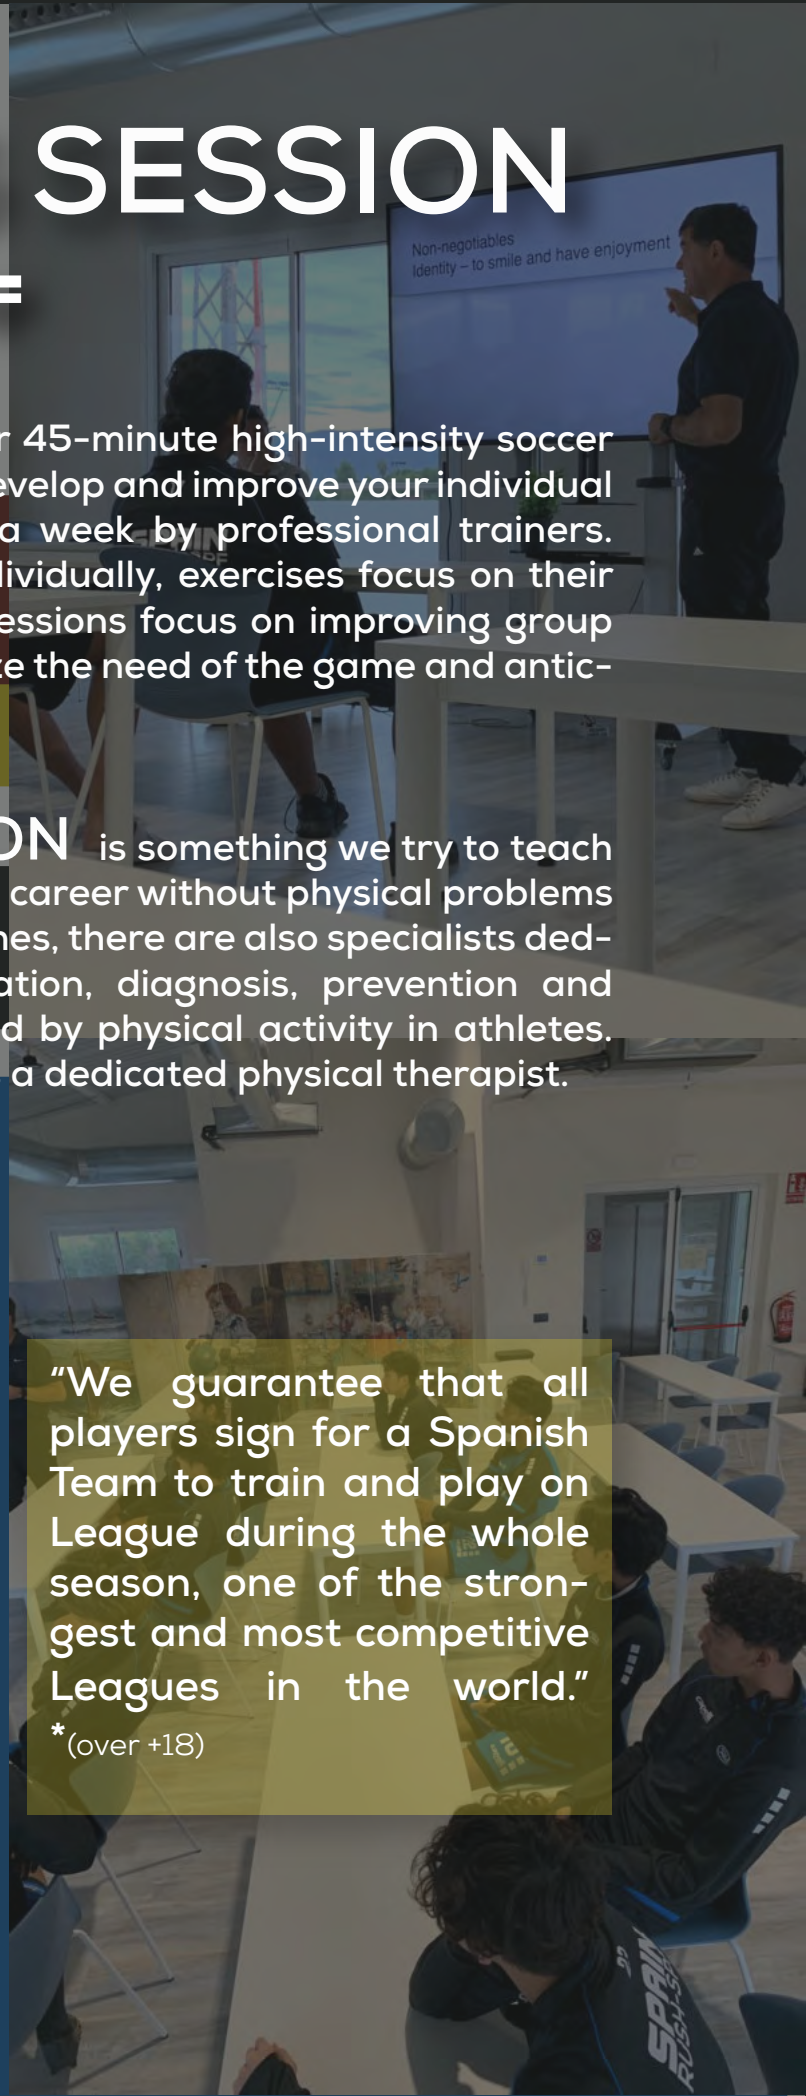

SPAIN RUSH-SPF uses a 1 hour 45-minute high-intensity soccer training session on the field to develop and improve your individual technique. Conducted 3 days a week by professional trainers. After analyzing each player individually, exercises focus on their flaws and weaknesses. Other sessions focus on improving group tactics. Players learn to recognize the need of the game and anticipate their position.

INJURY PREVENTION is something we try to teach to our players in order to have a career without physical problems in the future. In addition to coaches, there are also specialists dedicated to the physical preparation, diagnosis, prevention and treatment of all illnesses caused by physical activity in athletes. SPAIN RUSH-SPF Academy has a dedicated physical therapist.

Based on initial analysis, players will be given different tryouts in Spanish teams, adjusted for their current soccer level.

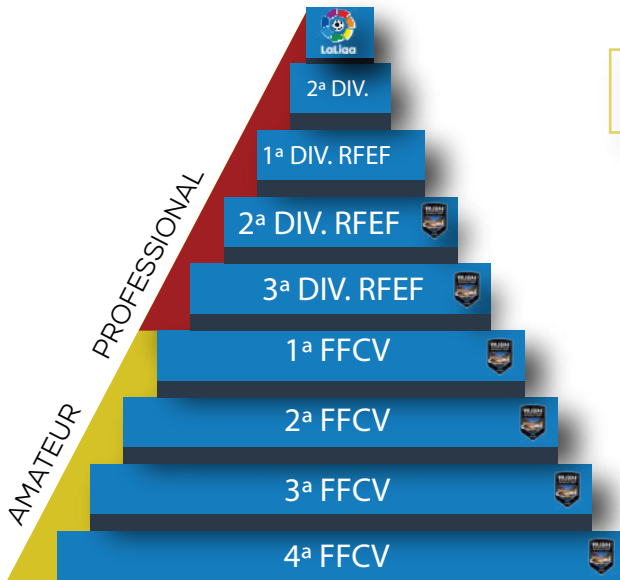

The coach assigns Spanish teams during the season to train and play in the league. SPF will take the necessary steps to obtain their soccer license. (+18)

There are 3 to 5 sessions per week in the afternoon or evening, depending on team schedule and one game per week on weekends.

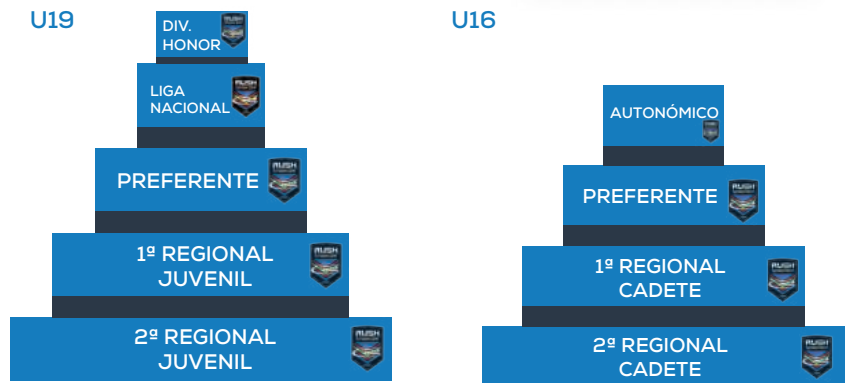

FOR PLAYERS WITH SOCCER LICENSE
